Why customising the phone?

- The telephone needs to be customised to
 - remove unused App icons.
 - install an AVT Wallpaper.
 - make the PhonerSet App the default phone application.
 - set the phone to the default configuration.
- AVT provides customisation files specific to each device.
- The files are bundled to an archive including:
 - this document
 - customisation files:
 - gxv3350cust
 - gxv3370cust
 - gxv3380cust
 - AVT Wallpaper

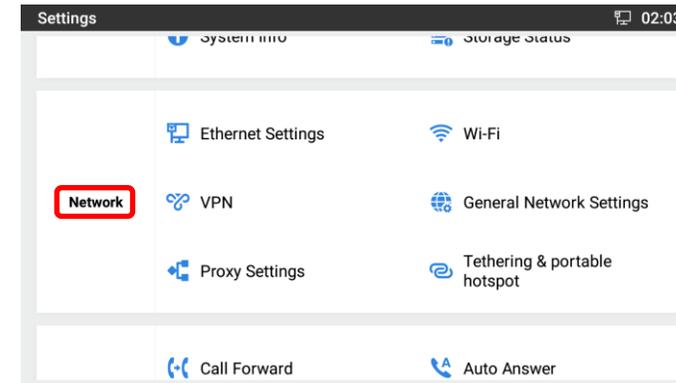

MAGIC PhonerSet

Initial Setup

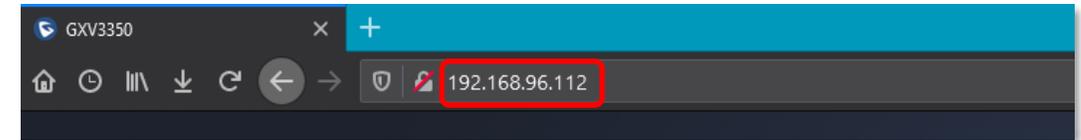

IP Address

- First, setup the IP address via the touchscreen of the telephone.
- Swipe to the second panel of the home screen.
- Tap SETTINGS.
- Scroll down to the NETWORK category and select ETHERNET SETTINGS.
- Tap IPV4 SETTINGS on the ETHERNET SETTINGS screen.
- Set IPV4 ADDRESS TYPE: Static IP
- Enter IP parameters valid for your network.
- Tap the checkmark in the upper right corner to save the settings.

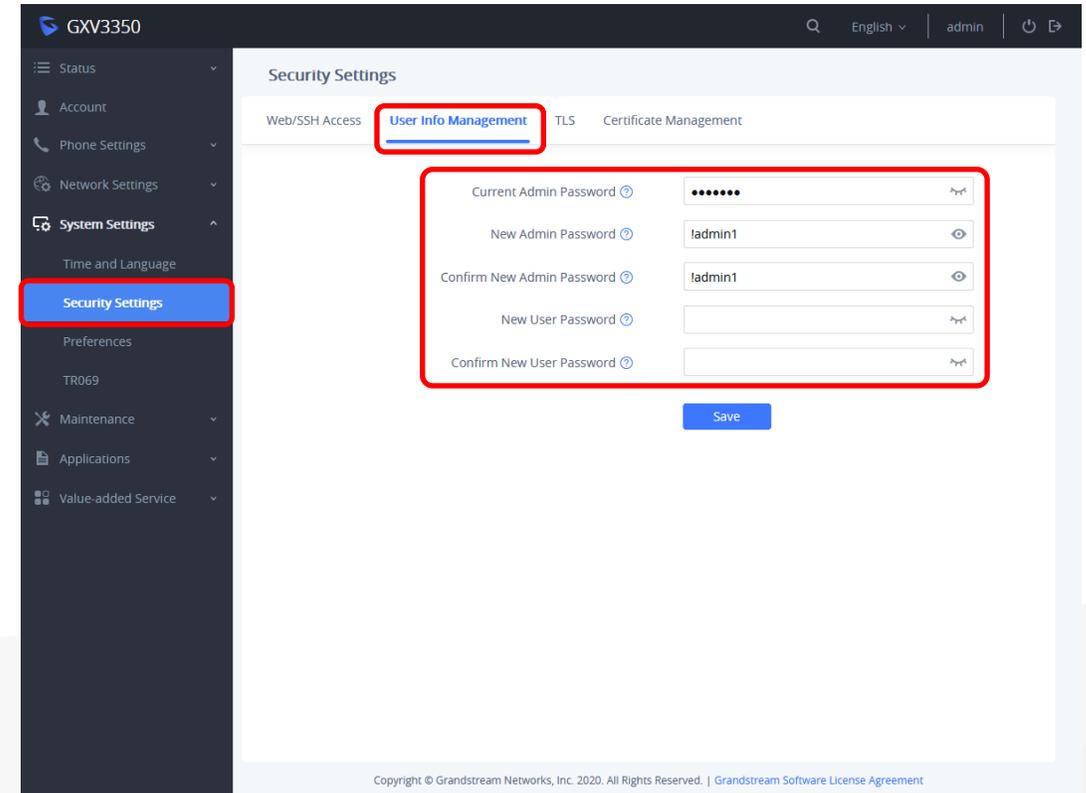

Web GUI

- Enter the IP address of the telephone in a Browser on your PC.
- The telephone will present a login screen.
- The credentials for the first login are:
 - USER: admin
 - PASSWORD GXV3350: The password is printed on the bottom of the phone next to serial number and MAC address.
 - Password GXV3370 / GXV3380: admin

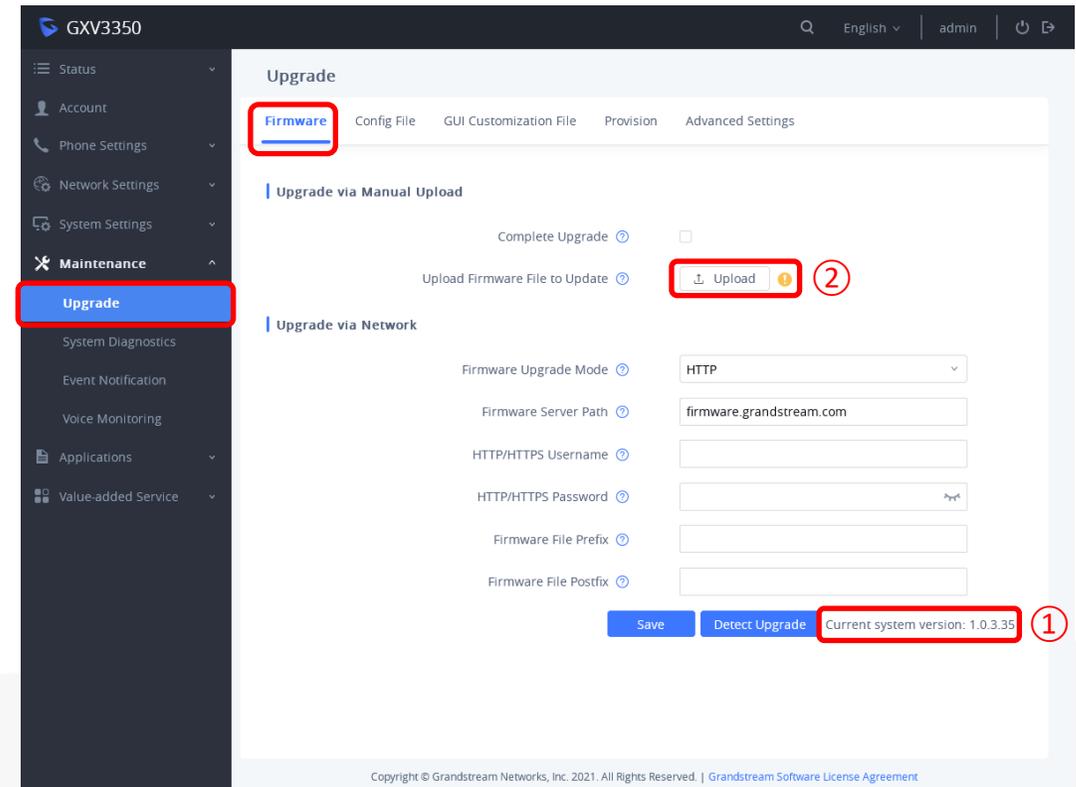

Default Login

- The Admin Password must be set to the default password which is mentioned in the PhonerSet User Manual.
- Change the password under SYSTEM SETTINGS – SECURITY SETTINGS – USER INFO MANAGEMENT
- Set the password to **!admin1**

Grandstream Firmware Version

- Make sure the telephone runs at least **System Version 1.0.3.30**.
- Go to MAINTENANCE → UPGRADE → FIRMWARE on the Grandstream Web GUI.
- Check the CURRENT SYSTEM VERSION ① in the lower right corner.
- If the system version is lower than 1.0.3.30 or not displayed, download the latest firmware for the phone from the Grandstream website:
<http://www.grandstream.com/support/firmware>
- Unzip the downloaded file to your PC.
- Click UPLOAD ② and select the file:
gxv33x0fw.bin.
- The new firmware is active after a restart.

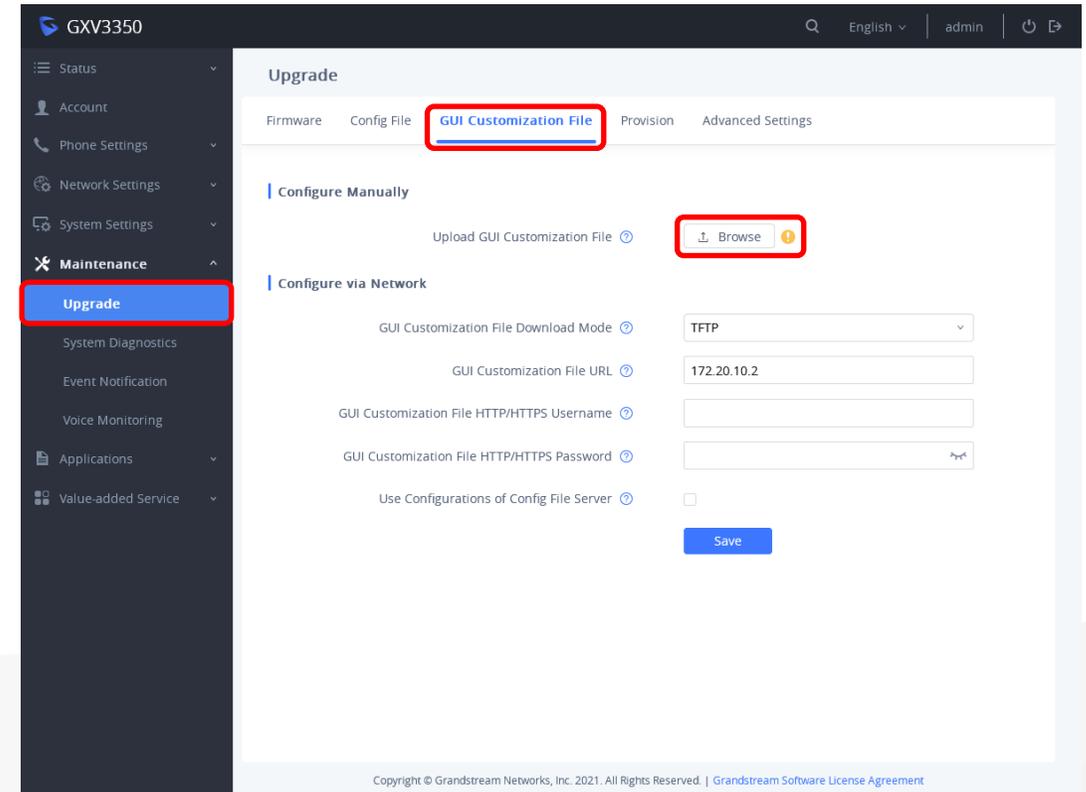

MAGIC PhonerSet

Customisation

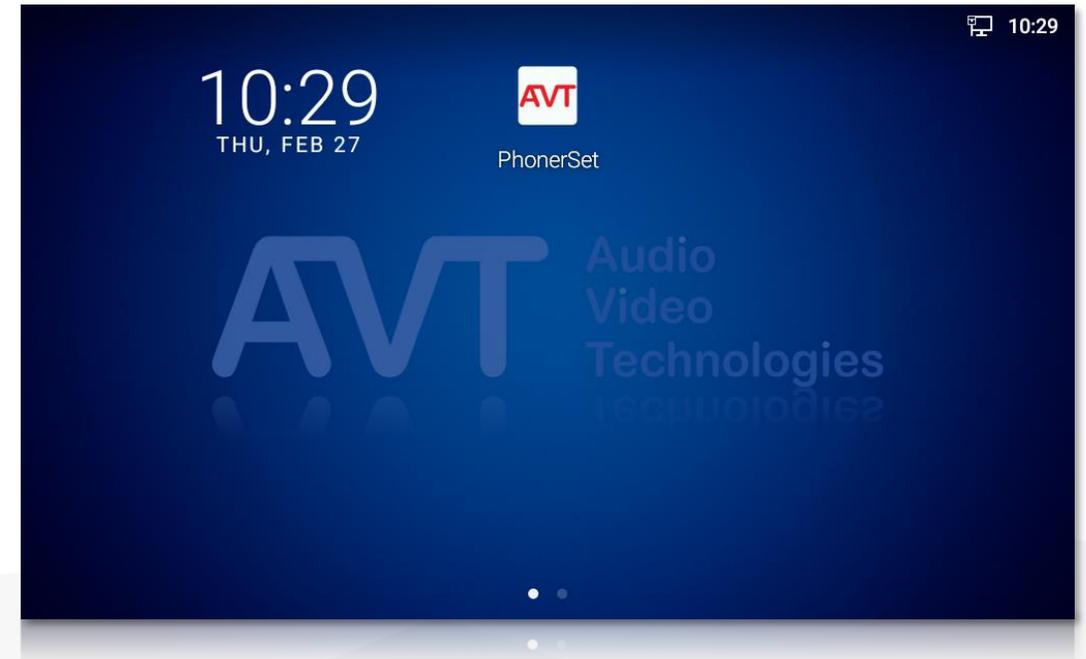

Customisation File

- Go to MAINTENANCE → UPGRADE → GUI Customisation File on the Grandstream phone's Web GUI.
- Tap on BROWSE under UPLOAD GUI CUSTOMIZATION FILE and select the file matching the phone:
 - GXV3350: **gxv3350cust**
 - GXV3370: **gxv3370cust**
 - GXV3380: **gxv3380cust**
 - The files come with this manual.
- Allow up to 5 minutes for the phone to process the file and automatically restart.

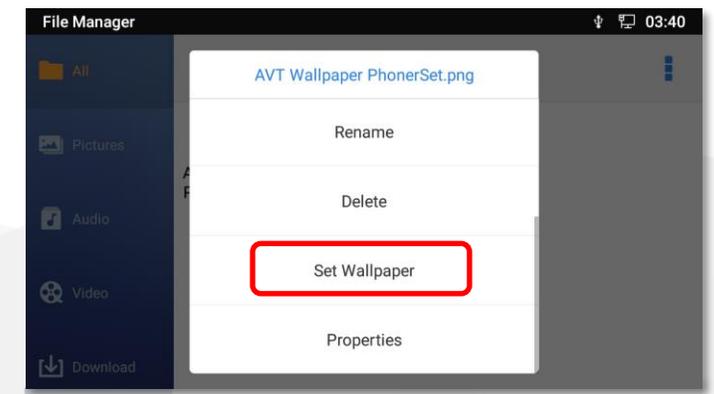

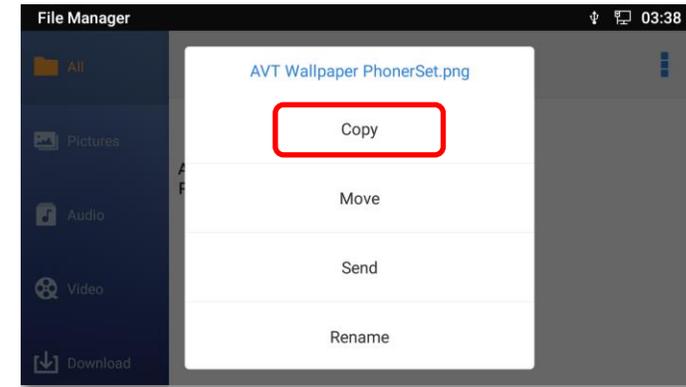

Wallpaper (1)

- After the reboot most of the app icons on the home screen should be gone.
- The AVT wallpaper should be displayed on the home screen.
- If not:
- Copy the content of the archive that came with this manual to a USB Flash Drive.
- Plug the USB Flash Drive into the telephone.
 - The USB port of the GXV3350 is located on the back of the telephone.
 - The USB port of the GXV3370 and GXV3380 is located behind a flap on the right side of the phone.

Wallpaper (2)

- Tap FILE MANAGER on the home screen of the telephone and go to USB DRIVE – WALLPAPER.
- Press and hold the **AVT PhonerSet Wallpaper.png** file.
- Select COPY
- Go to INTERNAL STORAGE – WALLPAPER
- Paste the file using the icon in the upper right corner of the screen.
- Tap and hold the file **AVT PhonerSet Wallpaper.png**.
- Select SET WALLPAPER.

Install PhonerSet App (1)

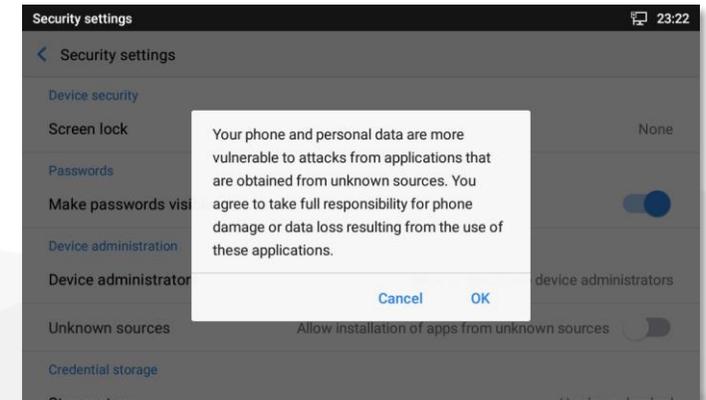

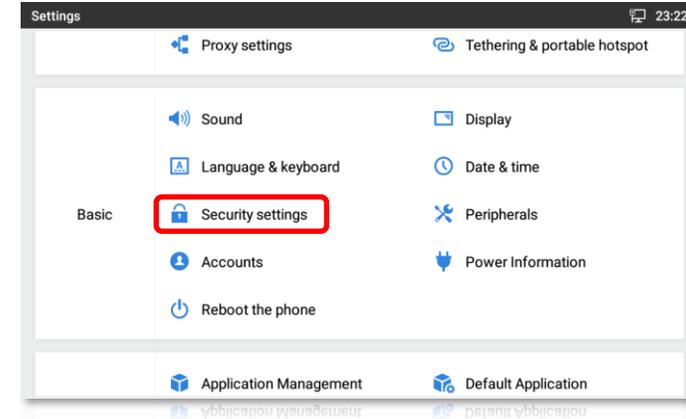

- Download the latest version of the MAGIC PhonerSet App from the download section of the AVT website:
<https://avt-nbg.de/en/downloads/software>
- Copy the MAGIC PhonerSet App to a USB Flash Drive.
- Insert the USB Flash Drive into the USB port of the phone.
 - GXV3350: The USB port is located at the back of the telephone.
 - GXV3370 / GXV3380: The USB port is located behind the flap on the right side of the telephone.

The screenshot shows the AVT website's 'Downloads' page. The 'Downloads' menu item is highlighted in the top navigation bar. The page title is 'Manuals & Software'. Under the 'CATEGORIES' section, 'Software' is selected and highlighted with a red box. The 'Software' section contains a list of downloads under the sub-heading 'Telephone Hybrids'. The first item, 'MAGIC PhonerSet (v1.101)', is highlighted with a red box. The table below shows the details of the software downloads.

Software Name	Version	File Size	Release Date
MAGIC PhonerSet	(v1.101)	APK, 3.28 MB	25.10.2021

MAGIC TH1 GO	(v1.620)	SSW, 2.41 MB	22.07.2021
MAGIC TH1 Go PC	(v1.620)	EXE, 5.88 MB	23.07.2021
MAGIC TH2plus	(v3.301)	EXE, 5.64 MB	18.01.2022
MAGIC TH2plus Intercom	(v2.420)	EXE, 3.73 MB	27.07.2018
MAGIC TH6	(v3.200)	EXE, 5.86 MB	16.07.2021
MAGIC TH6 Intercom	(v2.420)	EXE, 3.95 MB	27.07.2018
MAGIC THioPro Intercom	(v3.219)	EXE, 5.51 MB	11.11.2020

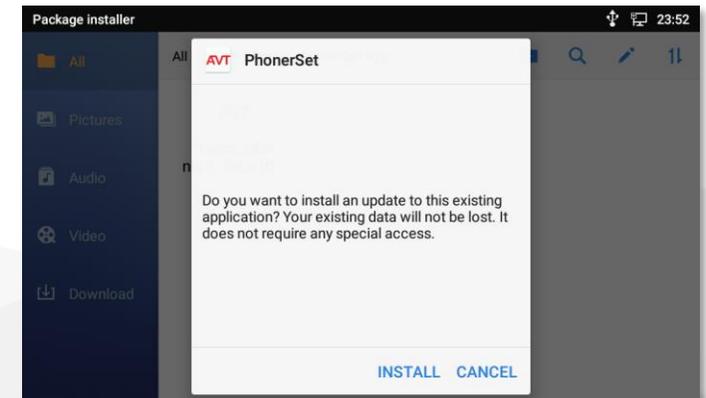

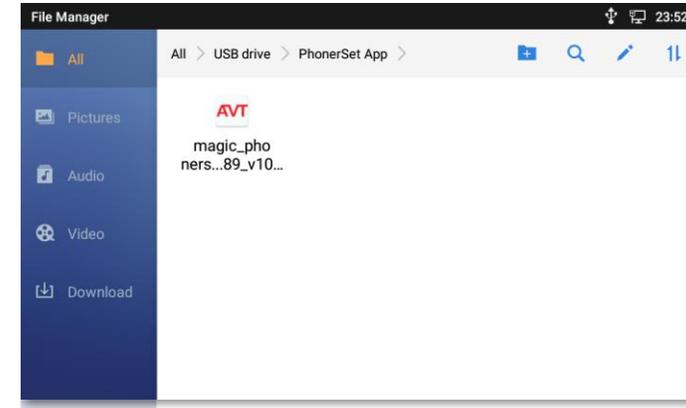

Install PhonerSet App (2)

- Allow the installation of an app from a USB Flash Drive in the settings.
- To do this, open SETTINGS on the home screen of the telephone, scroll down to the BASIC category and tap SECURITY SETTINGS.
- Enable UNKNOWN SOURCES and confirm the subsequent safety warning with OK.

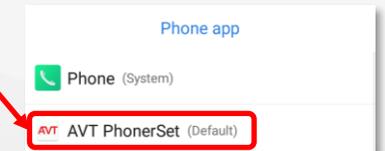

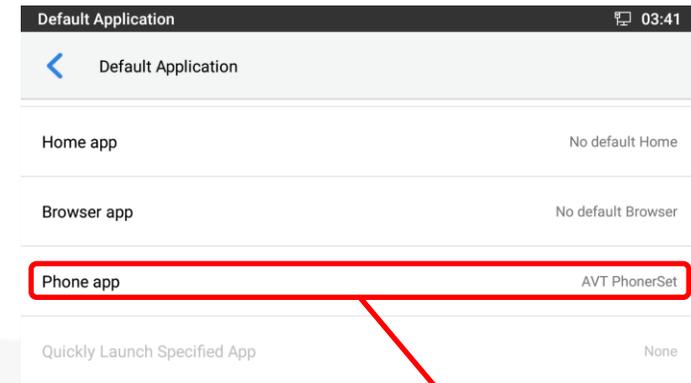

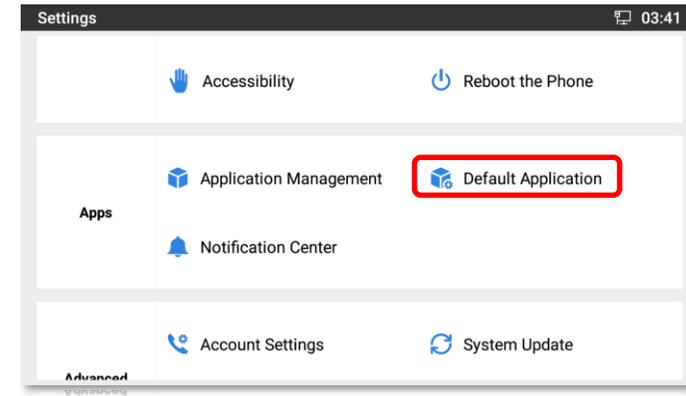

Install PhonerSet App (3)

- Open the FILE MANAGER from the home screen of the telephone.
- Navigate to the MAGIC PhonerSet App on the USB DRIVE and tap it.
- In the confirmation request dialog box, tap INSTALL and wait for the update process to complete.

Default Phone Application

- Set the MAGIC PhonerSet App as default phone application.
- Open SETTINGS from the home screen of the telephone.
- Scroll down to the APPS category and select DEFAULT APPLICATION.
- Tap PHONE APP and select AVT PHONERSET.

Home Screen

- Place date and time as well as the MAGIC PhonerSet icon on the first page of the home screen.
- Place all other icons on the second page of the home screen.
- Rearrange the Icons if necessary.
- Check if the AVT wallpaper is displayed.
- Find more information on configuring and operation the PhonerSet app in the Magic PhonerSet manual available on our website.

Support

A modern, multi-story office building with a glass facade and a prominent white AVT logo on the roof. The building is set against a cloudy sky. A large, semi-transparent red graphic element is overlaid on the right side of the image, partially obscuring the building's facade. The overall image has a high-contrast, slightly desaturated aesthetic.
